Electro4u

Embedded Hardware Design Mastery 2026 | Self-Paced Program (Hands-On with Lifetime Access)

Category: **C Programming** Level: **All Levels** Language: **Hindi** Duration: **50 Hours**

Self-paced: **Rs. 599**

Curriculum (11 modules)

01	Embedded Hardware lecture 01 | Complete Roadmap to Become a Hardware Engineer	Lesson
02	Embedded Hardware Lecture 02 | Electronic Components Explained	Lesson
03	Module 03: Power Supply Design	Lesson
04	Module 04: Embedded System Architecture	Lesson
05	Module 05: Microcontroller Hardware Design	Lesson
06	Module 06: Memory Interface Design	Lesson
07	Module 07: Digital Interfaces & Peripheral Design	Lesson
08	Module 08: Analog Circuit Design	Lesson
09	Module 09: PCB Design with KiCad	Lesson
10	Module 10: Hardware Debugging & Validation	Lesson
11	Module 11: Final Industry Project	Lesson
