Linux From Zero to Hero | Self-Paced Program (Hands-On with Lifetime Access)

Category: **Linux** Level: **Beginner** Language: **English** Duration: **50 Hours**

Self-paced: **Rs. 399**

Curriculum (24 modules)

01	Lecture 00: Linux System Programming – Complete Course Curriculum	Lesson
02	Lecture 01: Fundamentals of Linux & Bootable Steps	Lesson
03	Lecture 02:Function Pointer(From Basic to Advance)	Lesson
04	Lecture 03: Library (From Basic to Advance).	Lesson
05	Lecture 04: Process Management-1	Lesson
06	Fundamentals Of Linux & Bootable Steps-Test	Test
07	Library -Test	Test
08	Process Management-1_Test	Test
09	Lecture 05 : Process Management-2	Lesson
10	Lecture 06 : Process-Management-3	Lesson
11	Lecture 07 : Process-Management-4	Lesson
12	Lecture 8: Fork and \n significance	Lesson
13	Lecture 9:Orphan and Zombie	Lesson
14	Lecture 10:Introduction to Signal Management	Lesson
15	Lecture 11: Sending and Receiving Signals	Lesson
16	Lecture 12: Changing Signal Disposition	Lesson
17	Lecture 13:Signal Handler	Lesson
18	Lecture 14: Signal Management Summary	Lesson
19	Lecture 15: Introduction to File Management	Lesson

20	Lecture 16: File Management	Lesson
21	Lecture 17: Inter Process Communication (IPC)	Lesson
22	Lecture 18: IPC Mechanism- The PIPE	Lesson
23	Lecture 19: IPC Mechanism- The FIFO	Lesson
24	Lecture 20: IPC Mechanism- The Message QUEUE	Lesson
